Mysterious Affray—A Struggle for Live or death.—A most extraordinary affray happened Wednesday morning, in the toll-house on the Hamilton and Watertown road, in which a man named Hopkins received injuries which must lead to his death takens by the account given by the toll gate keeper, that at about daylight John Hopkins came to the toll-house and rapped at the door, saying he had a letter trans (another) Mr. Hopkins, who has charge of the road. (another) Mr. Hollians, who has charge of the road. On being admitted: Hopkins felt in his pocket for the letter, and not finding it, went out. The tollman, after opening the door, sat down by the stove. Shortly after Markhard and the store of the stor Hopkins again came in, with a stick fire feet long and an inch or two in thickness, and saying, "Now, you d——, I'll give it you, I aimed a blow at the other, which he seeing jumped up and warded off. They grappled, and ensued a fearful life or death struggle, which lasted for several minutes, during which first one and then the other had the upper hand. In the course of the struggie the tollman seized Hopkinis thumb between his teeth and bit it severely, not without serious injuries to his own jaw. Finally the stick remained in the possession of the tollman, who dealt several severe strokes on the head of his adversary, and causing him to fall insensible to the ground.

After this the tollman dragged him out of the house, and, leaving him in the road-himself being covered with blood, and bearing other evidences of the severe struggleproceeded to inform the neighbors, the nearest of whom lived at a distance of some 150 yards. The victim was of course, moved into the house. Although not dead at the time we write, there can be no doubt that he will die. He is entirely speechless and is suffering from concussion or depress-

ion of the brain. Hopkins is married, and has three child-ren. The toll keeper is a single man, and makes these statesments of his own accord. makes these statesments of his own accord. He is still at the toll house, in charge of a constable, and expresses his perfect readiness and his wish to stand a trial, as he says he acted in self-defense. No other testineary can be procured, save that of a wateriman on the railway close by, whit, at eleven minutes to seven heard a noise, as if of blows in the direction of the toll house.

THE PEOPLES' LECTURES.—The Committee desire us to say that a communication received too late for yesterday's News, informs them that dear Mrs. Partington has been for three days confined to her bed with Rhoumatism, and contrary to her hopes was compelled at the last moment to give up coming to Newport this week.

Isaac, who has always been a little wayward, was off and could not supply her place. Hence last evening's failure. This severe weather caused the disease from which Mrs. P. is suffering. The Committee, however, assure us that if she recovers she will yet visit us.

BISHOT CLARK is announced for this eve ning, and we hope will be here. He certainly will be if he can get through.

Mr. Editor :- I propose to furnish for your paper on Monday morning, the 10th inst., the monthly and yearly averages of the thermometer, taken three times each day, commencing January 1st, 1817, and ending December 31, 1856. This table has been compiled with great care and labor by; Dr. R. J. Taylor, from the accounts preserved at his house, the thermometer always having a western exposure. It is believed that we shall soon know what has been the actual range of heat and cold, both in this city and Providence, that the question may have some satisfactory answer rendered, what is the difference in the thermometer between the Northern and Southern cities of Rhode Island. H.J.

MR. EDITOR:-We are highly gratified with the arrangement entered into by the Pastors of the three Baptist Churches in this city, simply to have the bells of their meeting-houses toll on the evenings of their regular religious services five minutes, one half hour prior to their commencement, and not to ring as heretofore, after sun down .-It is proposed to give notice of any special service, as they do in Providence, and other places, by ringing before sunset. Why will not the City Council enact a law on this subject, that no bell shall be rung after sundown, except at an alarm of fire, as has been done in Providence? MANY.

MR. DURYEE'S SPEECH.—The Washington correspondent of the Boston Journal writes:

I unintentionally omitted, I believe, to pr tie the able speech of Mr. Duriee, of Rhode Island, which has the true old ring of "protection". After showing that the great manufacturing nations of Europe admit the raw materials of their manufactures free or duty, and thus have an advantage over our manufactures, he asks:

"Now, is there any sense in our taxing

ourselves any longer for the benefit of England and France? If we have gone so far land and France? If we have gone so far beyond the Christian rule that we love our neighbors better than ourselves, I can under stand the motives of such a policy. If, however, we have advanced no further than to love our neighbors as ourselves, it does seem to me that the continuance of such a policy admits of no valid excuse; and I do think, in this view of the subject, that the manufacturers of New England may well say, that the blood of her fathers was shed for some better purpose than merely that we might perpetuate, of our own accord, a commercial vassalage, which we found so galling when imposed upon us against our consent. It may be no disgrace voluntarily to wear their manacles and chains; but it is at last a crosses of colf-building with inat least a species of self-hundle ion which does not add much to our reputation for wisdom in this world, nor comport very well with our character in other respects."

The common sense, practical view taken by Mr. Durfee in favor of an abolition of the duties on wool, is of great value just now. No member's opinion on the ques tion is more respected—nor is there a ber, I will remark en passant, who has shown himself more devoted to those great principles for which "men of the North" battle here, than the member from Rhode Island.

SERIOUS RAILROAD ACCIDENT .- Augus ta, Ga., Feb. 1.—The up Sunday morning train on the Georgia Railroad met with a frightful accident about 17 miles from Augusta. The roof and three floors of No. 6 War-ren block, in this city, fell in last night. The lower floor was full of wheat, owned by Lewis & Allen.

From Mexico.-Philadelphia, Jan. 31. -A dispatch from New Orleans states that advices had been received there from Tampico to the 14th ult., to the effect that a battle had occurred between Garcia's troops and the Government forces, the latter claiming the victory. It occurred at Old Town which was completely pillaged by the invadera. Garcia was advancing on Tumpico where another battle was expected. The American Consul had requested the United States Consul at New Orleans to send a revenue cutter for the protection of the American residents and to prevent the pillage of the town.

STATE OF RHODE-ISLAND AND 1 ROVIDENCE PLANTATIONS. PROVIDENCE SO.

To the Sheriff of the County of Newport, GREETING.

Whereas the Court of Common Pleas for the County of Newport in suid State, was adjourned from the last November Term of said Court to the first Tuesday of February, 1857, at 10 o'clock, a. m.; and whereas, from the pastinclemency of the weather, the means of passage to the city of Newport are difficult, uncertain and hazardous, and from the pressure of business the presiding Judge of said Court is unable to attend at said time, and the Chief Justice and the associate Justices of the Supreme Court being necessarily engaged in other official duties are also unable to attend as aforesaid, and from many other necessary and unavoidable lets or hindrances it is probable that said Court cannot convene within six days from said first Tuesday of February, A. D. 1857; it is therefore necessary to adjourn the meeting of said Court to a future day.

And said Court i a cordingly adjourned to the seventeenth day of February, A. D. 1857, that being at as little distance of time from the time said Court ought to have met by adjournment, as aforesaid, as is convenient and proper for said Court to meet or be held

You are therefore hereby commanded to cause publication of said adjournment to be made according to law. Hereof fail not, and make true return of this writ with your doings thereon into the Clerk's office of said Court,

In witness whereof I have hereunto set my hand and seal at Newport, this third day of February, in the year 1857.

SYLVESTER G. SHERMAN,

Associate Justice of the Supreme Court and Presiding Justice of the Court of Com-

By virtue of the above writ, I hereby cause publication to be made according to law, that the Court of Common Pleas, within and for the County of Newport, which was to have been holden by adjournment on Tussday, the 3d day of Feb., is now adjourned to Tuesnay, the seventeenth day of Feb., WM. D. LAKE, Sheriff.

How MURAT DRED,-The sentence of the military cononission was read to him with due solemnity. He listened to it, as he would have listened to the cannon of another battle during his military lite, without profiles a broaden with the cannon of another battle during his military lite, without emotion or bravado. He neither asked for pardon, for delay, nor for appeal. He had advanced of his own accord, toward the door as if to accelerate the catrostrophe. The door opened on a narrow esplanude lying between the towers of the castle and the outer walls. Twelve soldiors, with loaded muskets, awaited him there. The narrow space did not permit him to stand at a sufficient distance to deprive his death of a part of its horror. Murat, in stopping over the threshold of the chamber, found himself face to face with them. He refused to have his eyes bandaged, and looking at the soldiers with a firm and heavenfort emile set.

iers with a firm and benevolent smile, said.

"My friends, do not make me suffer by
taking bad sin. The narrow space compels you almost to rest the muzzels of your
muskets on my breast; do not tremble; do muskets on my breast; do not tremble; do not strike me in the face; aim at my heart—here it is." As he spoke thus, he placed his right hand upon his coat, to indicate the position of his heart. In his left hand he held a small medallion, which contained in one focus of love, the image of his wite and four children, as if he wished thus to make them witnesses of his last look. He fixed his even on this portrait and received fixed his eyes on this portrait, and received the death-blow in the contemplation of all he loved on earth. His body, pierced at so short a distance with twelve balls, fell, with his arms open and his face toward the earth, as if still embracing the kingdom he once possessed, and which he had come to reconquer for his tomb. They threw his coak upon his body, which was buried in the Cathedral of Pizzi. Thus died the most chivalrous soldier of the imperial epoch— not the greatest—but the most heroic figure among the champions of the new Alexander.

California. San Erancisco lately received contain some interesting statistic of population, and of commercial, and financial movements in California, in the course of the last year. According to the passenger tables published in the Bul-letin of the 4th inst., the number of passengers who arrived at San Francisco by sea during the year 1856 was 28,265: of whom 20,940 were men; 5244 women; and 2421 children. The number of departures was 22,003, making an excess of 5362 in the number of arrivals. Of this excess, 3899 was in the number of women, and 1435 in the number of children.

Of these arrivals 17,233 were by the

Panama route: 4148 by the Nicaragua; and 5338 from China. The number of departures of men by the Panama and San Juan bres of men by the l'antama and San Juan routes was equal to the arrivals. The number of arrivals by way of the plains, consisting of a class of population which the Bulletin says, the State most needs, is estimated to be such as to give an increase of permanent population of not less that 8000, These emigrants brought with them from 25,000 to 30,000 head of horned cattle.

The number of vessels which arrived

during the year from Atlantic ports of the United States was 128, constituting a ton-age of 149,370 tons: from Great Britain and France 39 of a tonage of 19,448 ions.
In regard to the supplies of gold, we

In regard to the supplies of gold have the following information from same journal, from which it will be seen that the shipments in 1856 exceeded those of the preceding year by \$5,504,803, but were less than in two years before by

The total exports of treasure in 1856, as The total exports of treasure in 1050, as compared with preceding years, stands thus: —Exports in 1851, \$34,492,000; 1852, \$45,770,000; 1853, \$54,495,000; 1854, \$51,429,000; 1855, \$40,182,634; 1856, \$54,664,434; 1856, \$50,694,431.

The gold movement outward, during the past year, presents some features worth remarking when contrasted with that of former years. The shipments of 1856 compared with those of 1855, show an increase of \$5,514,803. Of this sum the increased shipments to England and China make up the greater proportions, as the following

The greater proportions, as comparative figures show:
Shipments to England in 1856, \$8,666, 289; 1855, \$5,182,156; 1854, \$3,701,030; 1853, \$4,975,662, To China in 1856, \$1,308,852; 1855,

\$347,134; 1854, \$633,842; 1853, \$926,-To New York in 1956, \$39,765,294; 1855, \$38,730,564; 1854, \$46,289,649; 1853, \$47,916,448.

The exports to England in 1856, of \$3,-500,000 more of gold than in 1855 leads to the inquire as to the cause. A portion of the amount was doubtless foreign capital, withdrawn in consequence of the suddenly considerable between the suddenly acquired high value of money in Europe and the insecurity of investments here. The course of Exchange probably has at times rendered shipments of treasure direct to England more desirable than to New York.

It will be noticed that nearly a million more of money was sent to China in '66 than in the preceding year; this is owing to there having been large amount of dollars and doubleons received here from Mexico during the past six months, for trans-ship ment to China for English account. There is a constant demand for silver in England for China and the East Indies, and the fact being ascertained that it is a saving of 2 per cent in freight and insurance as well as of time, to slip from Mexico via San Francisco rather than via Southampton, this route has been selected, and for the future, or, at least until the course of trade changes, we may expect to see the shipments of treasure to China figure up annually a

large total.
The exports of treasure to the Atlantic States, Europe, Panama and the Sandwich Island comprise nearly all of the manifested shipments of gold coin and bullion, the product of California; the exports to China and other with an expressed of China and other points are composed of dollars and doubloons received from Mexi. co. The annual product of the California gold mines it is hard to get at ; in addition to the manifested shipments of the past year a very large amount of money has been tuken away by passengers, and a larger one still retained in the State. Those well competent to form an opinion upon the subject say that there are seventy millions produced annually and probably that estimate is very near a correct one.

New York, Nov. 4th, 1856.

Mr. Rout. M. Pattick, 192 Pearl-81.

Bear Sir:—The Defiance Safe, No. 5,778, purchased from you about eighteen mouths since, was in my house at Newport, R. L., which, with the furniture, was entirely destroyed by fire on the night of oith the June last. The Safe, after being exposed to an intense heat for many hours, was recovered on the 19th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was agreeably surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect arder as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully, Daniel Parsin.

NOSTON.

A FTER an extensive practice of apwards
of twenty years, continues to secure Patents in the United States; also in Great
Britain, France and other foreign countries.—
Caveats, Specifications, Assignments, and all
Papers or Drawings for Patents, executed on
liberal terms, and with despatch. Researches made into American or Foreign works, to
determine the validity or utility of Patens or
Inventious,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by
remitting One Bollar. Assignments recorded
at Washington.

This Agency is not only the largest in New
England, but through its inventors have advantages for securing patents, or ascertaining
the patentability of inventions, unsurpased by
if not immeasurably superior to any which can
be offered them elsewhere. The testimonials
below give proof that nanc is MORE SUCCESSFUL AT THE PATENT OPFICE
than the subscriber; and as SUCCESS IS
THE BEST PROOF OF ADVANTAGES
AND ABILITY, he would add that he has
abundant reason to believe, and can prove,
that at no other office of the kind are the
changes for professional services so moderate.
The lemmense practice of the subscriber during twenty years past has enabled him to accountaite a vast collection of specifications and
official decisions relative to patents. These,
besides his extensive library of legal and mechanical works, and full accounts of patents
granted in the United States and Europe,
render him able, beyond question, to offer
superor facilities for obtaining patents.

All necessity of a journey to Washington,
to procure a patent, and the usual great delay
there, are here saved inventure.

TESTIMONIALS.

During the time I cocupied the office, as
Solicitor of procuring Patents. There were
few, if any persons acting in that capacity,
who had so much business before the Patent
Office; and there were none who conducted it
with more skill, fidelity and snecess. I reg

Britted, Mass., 20th Dec., 1855.

The J. C. Aver. I do not healtate to ray the best remedy I have ever found for Coughs, Hoarseness, Industria, and the concomitant symptoms of a Cold, is year Cherary Protonat. Its constant use law practice and my fandy for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EHEN KNIGHT, M. D.

A. B. MORTLEY, Exp., of Urica, N. Y., writes: "I have used your Protonat myssif and in my family ever since you invented it, and believe it the best medicine for its purpose over put out. With a tool cold I should soome ray twourp-five dollars for a bottle than do without it, or take any other remedy."

Ayer's Cathartic Pills.

The sciences of Chemistry and Medicino have been taxed their names to produce this beet, most perfect purgetive which is known to man. Immunerable profit are shown that these Plats have virtues which surgass in excellence the ordinary medicines, and that they win unprecedentably upon the setem of all man. They are asfe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, and expel disease. They parge out the foulthmore which breed and grow distenger, stimulate sluggish or disordered organs into their natured action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dayperous diseases that have laffled the last of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the affest and beat physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of laura. Cure have been made which suppass beined were they not substantiated by men of such exoliced position and character as to forbid the suspicion of untrull. Many enthent elegymen and physicians have lent their names to carrie from the reliability of my remedies, while others have sent me the assumence of their conviction that my Preparations contribute immonsely to the relief of my affilicted, suffering fellow-men.

The Agent below manuel is pleased to furnish grafte my American Almanae, containing directions for their use and extilicates of their cures, of the following complaints:—

THE GREATEST WONDER OF THE AGE.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE A BINUTES—M. LEROUX'S French Cholera Cognae Bitters. This truly wonderful reientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, discentific compound in the property of the stomach in general. The numerous patients who have tried it accurding to directions have invariably found relief in a very clord times and the hest proof of it is, that since this standard remedy was introduced in the armice of the Alice in the Crimea, the mortally of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from chilera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents who are dyspertic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its inmediate and complete success, suit he will be happy at any time to show to any that may wish to see them.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville

Prof. of Chem. in the Univ. of Louisvine This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactural by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes must likely to corrode them. Prof. O. J. Wood—Dear Siy—I take pleasure in hearing voluntary testimony to the magic effects of your wonderful Hair Restor ative. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many elebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and jussured by very glossy and insed a quart bottle, my hald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.
